

MENTORING SKILLS FOR HIGH PERFORMANCE

Overall Objective

The Mentoring Session aims to equip participants to successfully establish mentoring relationships and to conduct mentoring conversations to ensure optimal value and development assistance with identified development and/or challenge requirements.

Method

- The focus will be on practically experiencing the techniques. The practical exercises to be completed in each section will enable the participant to implement what is learned.
- Role modeling will be used so that the participants can experience what is meant by the principles taught as the recipient learners.
- This work session will be process driven – actively learning the “how” of mentoring in an effective manner with participants gaining the practice they need.
- The participants will walk away with a toolkit with which to engage the Mentee/Protégé they will be mentoring.
